Relating to Abortion and Other	
Reproductive Decisions	

Proposed Constitutional Amendment

Proposed by Initiative Petition
To enact Section 22 of Article I of the
Constitution of the State of Ohio

A majority yes vote is necessary for the amendment to pass.

The proposed amendment would:

- Establish in the Constitution of the State of Ohio an individual right to one's own reproductive medical treatment, including but not limited to abortion;
- Create legal protections for any person or entity that assists a person with receiving reproductive medical treatment, including but not limited to abortion;
- Prohibit the State from directly or indirectly burdening, penalizing, or prohibiting abortion before an unborn child is determined to be viable, unless the State demonstrates that it is using the least restrictive means;
- Grant a pregnant woman's treating physician the authority to determine, on a case-by-case basis, whether an unborn child is viable;
- Only allow the State to prohibit an abortion after an unborn child is determined by a pregnant woman's treating physician to be viable and only if the physician does not consider the abortion necessary to protect the pregnant woman's life or health; and
- Always allow an unborn child to be aborted at any stage of pregnancy, regardless of viability if, in the treating physician's determination, the abortion is necessary to protect the pregnant woman's life or health. If passed, the amendment will become effective 30 days after the election.

SHALL THE AMENDMENT BE APPROVED?
